

## **GOOD IDEAS for meaningful recognition**

*Meaningful recognition is specific, relevant and timely. Pennsylvania Park and Recreation Professionals Day is a custom-designed opportunity to express why your staff and volunteers are important and valued.*

All park and recreation agencies are encouraged to host a public event on or about the third Friday of July, to celebrate those who drive public engagement and provide the indispensable services that thriving communities require every day.

Your celebration may certainly be a part of another event. The most meaningful occasions invite the public and local officials to join the festivities, which may include entertainment, refreshments, presentations or demos by youth or summer camp groups, photo opportunities, and a ceremony with brief remarks. And of course, your valued employees and volunteers as the honored guests!

Share your thanks publicly on your social media channels, which helps boost the value of your services in the eyes of your park users and public officials. Use #ParkAndRecDay and tag with:
