Graduate <https://www.edinboro.edu/admissions/apply/graduate-students/index.php>

School of Education - Health and Physical Education

Sport and Recreation Management (BS)

<https://www.edinboro.edu/academics/majors-and-programs/undergraduate/bachelor/sport-and-recreation-management-bs/index.php>

The Sport and Recreation Management program is part of Edinboro's School of Education and prepares you to work in the fields of sport and recreation event management, collegiate or professional athletics, sports marketing, or sport and recreation facility management. Professors will serve as your mentors as you develop a solid foundation that includes leadership theory, personnel management, and law and liability. The Coursework will also provide insight into program development, implementation and evaluation, and sport and recreational facility design. A semester-long internship will complement your classroom learning and prepare you for the future. By following our curriculum, you'll graduate ready to enter the workforce and make your mark in the field of sport and recreation management.

Exercise Science (BS)

<https://www.edinboro.edu/academics/majors-and-programs/undergraduate/bachelor/exercise-science-bs/index.php>

The U.S. Bureau of Labor Statistics predicts that jobs for physical therapists, exercise physiologists, fitness trainers, and instructors will grow as businesses, insurance companies, and other organizations recognize the benefits of health and wellness and offer incentives for keeping healthy habits. You'll learn theory and practical applications in our health and fitness computer laboratory and state-of-the-art exercise science laboratory. Worksite field experience plus a full semester internship will give you hands-on experience. You'll graduate more than ready to enter the workforce or enhance your career by pursuing a graduate or professional degree.

Health and Physical Education Teacher Certification (BS)

<https://www.edinboro.edu/academics/majors-and-programs/undergraduate/bachelor/health-and-physical-education-teacher-certification/index.php>

Professors will serve as your mentor as you develop a strong foundation that includes various aspects of personal health and wellness, as well as kinesiology and the full gamut of physical activity and pedagogical skills. You'll learn theory and practical applications in our health and fitness computer lab and our state-of-the-art human performance laboratory. There is a Junior field experience in the schools, plus a full semester of student teaching will give you the hands-on experience you need. Before you graduate, you'll be well-prepared to pass the Praxis® exam and obtain your Pennsylvania certification to begin teaching. During the semester-long student teaching experience, you will work alongside a cooperating teacher, earn 12 credits and have the opportunity to learn more about the day-to-day responsibilities of being a Health and Physical Education educator.
